

# Homa Therapy

THE  
SUPERTECHNOLOGY  
OF THE FUTURE  
FOR  
TOTAL HEALING

# WHAT IS HOMA THERAPY?

---

It is the science of HEALING the ATMOSPHERE through PYRAMID FIRES to eliminate POLLUTION & CONTAMINATION.

---

**AGNIHOTRA is the basic HOMA**

# ***WHAT IS AGNIHOTRA?***

---

- It is the process of purification of the atmosphere through the agency of fire tuned to the specific biorhythm of sunrise/sunset.
  - It comes from the ancientmost Vedic sciences of *Bioenergy, Medicine, Agriculture and Climate Engineering.*
- 

# *What are the effects of Agnihotra?*

---

- **It heals:**

- the atmosphere
- the soil
- the subsoil
- the water
- the plants
- the animals
- the human beings

# AGNIHOTRA Materials

---

- Copper pyramid of fixed size
  - Ingredients (dried cow dung, cow's ghee, brown rice)
  - Mantra (vibrations)
  - Timesheet exact to the second of sunrise/sunset
-

# ***AGNIHOTRA MANTRA***

*at Sunrise*

---

Sooryáya Swáhá 

Sooryáya Idam Na Mama

Prajápataye Swáhá 

Prajápataye Idam Na Mama

Put brown rice mixed with ghee into the fire

# ***AGNIHOTRA MANTRA***

*at Sunset*

---

Agnaye Swáhá 

Agnaye Idam Na Mama

Prajápataye Swáhá 

Prajápataye Idam Na Mama

---

Put brown rice mixed with ghee into the fire

# ***OM TRYAMBAKAM HOMA***

***(4 hours daily)***

---

Om Tryambakam yajámahe

Sugandhim puṣṭi vardhanam

Urvárukamiva bandhanán

Mṛutyor mukṣheeya māmṛutát

Swáhá 

Put one drop of ghee into the fire

# *Benefits of HOMA THERAPY In Agriculture*

---

## **MORE PROFIT**

- Increased production in quantity and quality
  - Reduced cost for labor to apply agrochemicals
  - The produce is like that of grandma's time in:
    - \*taste
    - \*size
    - \*texture
    - \*nutrition
  - Prolongs the shelf life and makes them fitter for export
  - Increased number of harvests during the year, i.e. productive cycle is shortened
-

# ***Benefits of HOMA THERAPY In Our Lives***

---

## **➔ BETTER LIFE QUALITY**

- Improves our physical, emotional and mental health
- We can live in a healthy environment  
(water, soil, plants and animals)
- We can live in harmony with nature

## **➔ WE CONTRIBUTE TO A CONTAMINATION FREE ENVIRONMENT**

## **➔ IT IS A TECHNIQUE WITH LITTLE INVESTMENT MADE ONLY ONCE IN A LIFETIME**

## **➔ MINIMUM MONTHLY EXPENSES**

---

# Healthy and abundant crops with HOMA THERAPY

Homa Organic Farming

---

South American Results

# MANGO variety HADE

## PRODUCTION:

**Without agrochemicals:**

**10,000** kg per Hectare  
(8,925 pound per acre)

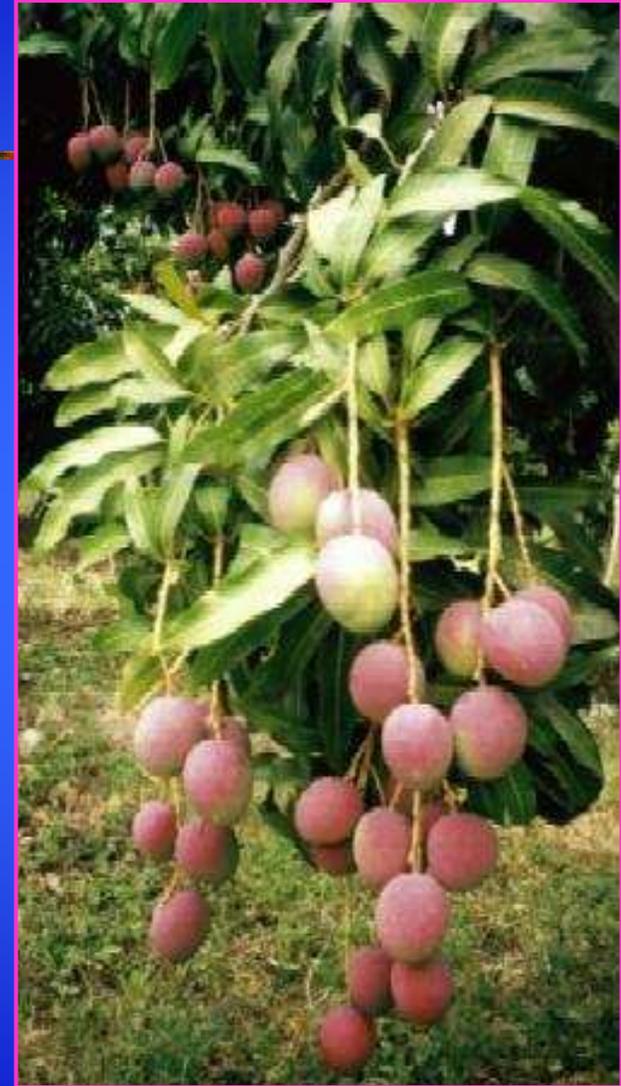

**With agrochemicals**

(insecticides and fertilizers):

**30,000** kg per Hectare  
(26,700 pounds per acre)

Applying **HOMA THERAPY :**

**84,000** kg per Hectare  
(74,800 pounds per acre)

Observation: Eng. Jorge Hildalgo Valdiviezo,  
Ministry of Agriculture of the Republic of Peru, Promotion of Fruit Culture

# LEMON Variety SUTIL

## PRODUCTION:

**Without the use of agrochemicals:**

**6,000 - 8,000** kg per Hectare  
(5,340 - 7,120 pounds per acre)

**With agrochemicals**

(insecticides and fertilizers):

**15,000** kg per Hectare  
(13,360 pounds per acre)

Applying **HOMA THERAPY:**

**17,200** kg per Hectare  
(15,320 pounds per acre)

Observation: Eng. Jorge Hidalgo Valdiviezo,  
Ministry of Agriculture of the Republic of Peru, Promotion of Fruit Culture

## Bananas-variety "Isla"

- A fifth generation plantation producing small bunches and giving minimum production.
- Infested 70% with fungi Fusarium
- 40% moco Pseudomona Solanace
- on the average each plant gives 6-7 offsprings, the main part not being fit for propagation
- Infected with Sigatoka Negra and Sigatoka Amarilla
- productive cycle is 8 1/2 months

after 4 months with

### HOMA THERAPY

- uniform rejuvenation in the whole banana plantation
- absence of plagues and diseases
- the bunches are much bigger and of heavier, with an average of 120 bananas
- average of 12-13 productive offsprings
- 8-10 healthy leaves at the time of harvesting
- productive cycle: 6 months

Observation: Eng. Rosa Cortez Morales  
Ministry of Presidency of the Republic of Peru

# Tomato-variety “Marglobe”

## Earlier harvest with agrochemical:

- 90% Oidium sp.
- 95% Bemissta Tabaci
- **size:** 7 cm
- **weight:** 85 grams
- **thickness:** 13 cm
- **taste:** poor taste
- **texture:** without shine
- **color:** pale red
- **yield per plant:** 1 to 2 kg
- **harvest:** 12 weeks

## HOMA THERAPY

- completely healthy
- 10 cm
- 120 grams
- 20 cm
- pleasant
- firm
- intense red
- 3 to 4 kg
- 7 weeks

Observation: Eng. Rosa Cortez Morales,  
Ministry of Presidency of the Republic of Peru

# Coffee with HOMA THERAPY

- Coffee planted in Homa atmosphere starts to flower at 8 months and is in full production when reaching the year.
- It is in its full second fruition after 14 months. The knot where the coffee was harvested starts to flower again and produces new coffee.

Normally coffee starts to flower and to give fruits after one and a half year of being planted.

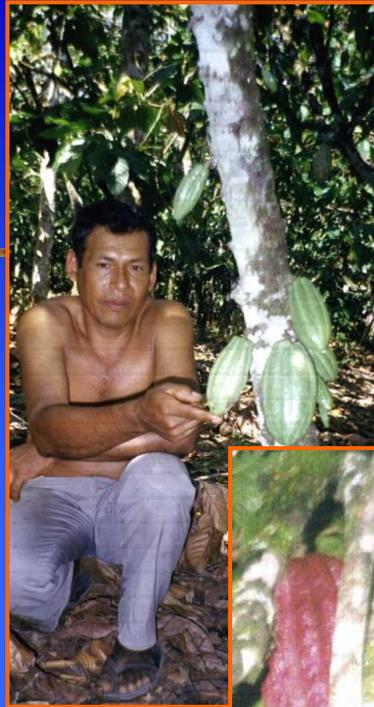

Observation: Eng. Rosa Cortez Morales,  
Ministry of Presidency of the Republic of Peru

# Cocoa

## Conventional farming:

Most plants in the 10 ha of cocoa were destroyed by:

- Moliniasis and witches' broom
- the few remaining plants hardly showed any sign of flowering or fruition

With **HOMA THERAPY**

The few remaining plants show:

- Rejuvenation
- No plagues nor diseases
- Very healthy and shiny green leaves
- Big and healthy fruits
- The production increased by 400%
- Production all year round

Observation: Eng. Rosa Cortez Morales  
Ministry of Presidency of the Republic of Peru

## Beans, variety “Castilla” with **HOMA THERAPY**

Approximately 100 days after being planted and 3 months with **HOMA THERAPY** treatment, the harvest was 2,276 kgs/ hectare (5,024 lbs/hectare) in dry condition. This was classified by export experts as “an excellent harvest and the best of the valley”. Also, the appearance of a predator that reduced the population of the “White Fly” to the minimum was observed in this Homa atmosphere.

Observation: Eng. Jorge Santiago, Local SENASA Office, Canete, Peru  
(National Service of Agrarian Health, Subordination of the Ministry of Agriculture)

# Coconut with **HOMA THERAPY**

## Conventional method:

- New and old plants attacked by ants and fungi
- Fruit fell off before ripening
- Each bunch produced only 5 coconuts, which ripened very slowly.

The plants were healed and freed of all fungi and ants.

- Producing an average of 25 coconuts per bunch ( up to 35 coconuts)
- Year round production

Coconut bunch with 35 fruits, applying **Homa Therapy**

Observation: Eng. Rosa Cortez Morales,  
Ministry of Presidency of the Republic of Peru

# Cucumbers with **HOMA THERAPY**

- **Harvested in 40 days**
- **each plant gives an average of 17 healthy fruits**
- **each fruit is 25 to 30 cm long and 20 to 25 cm thick**

Harvested in 80 days with **Conventional Agriculture** using agrochemicals.

Observation: Eng. Rosa Cortez Morales,  
Ministry of Presidency of the Republic of Peru

# Cabbage with Homa Therapy

- Harvested in 60 days
- each head has a diameter of 80 cm
- completely free of all plagues and diseases

Harvested in 90 days with **Conventional Agriculture** using agrochemicals.

Observation: Eng. Rosa Cortez Morales,  
Ministry of Presidency of the Republic of Peru

# Papaya with HOMA THERAPY

Papaya plantation with 6 months in full production, giving to harvest per week.

Production: 150 metric tons per year, with tendency increasing.

In conventional agriculture, using agrochemicals, the papaya starts to produce after 8 to 9 months, has diseases and deficiency problems. Production: 75 metric tons per year.

Observation: Eng. Rosa Cortez Morales,  
Ministry of Presidency of the Republic of Peru

# Oranges with HOMA THERAPY

- Through **Homa atmosphere** and the use of **Agnihotra ash-water solution** the vegetative development in this orange nursery sped up to 1 cm per day
- free of plagues and diseases
- the plants maintain very green leaves without any shadow
- developing leading branches

These plants were grown on extremely poisoned soil due to aerial fumigation with strong chemicals to eradicate coca plants.

Observation: Eng. Jose A. Muñoz Cardenas, Padre Abad,  
Ministry of Presidency of the Republic of Peru

# Potatoes with HOMA THERAPY

“Rancha” destroyed the potato crop with an incidence of 70% to 100%. “Rancha” dries the plant and if the potatoes are not harvested immediately they rot.

Dry potato field due to the “Rancha” attack

The existing “Rancha” itself dried up, turned into powder, fell on the ground and the plants recovered their full health and vigor.

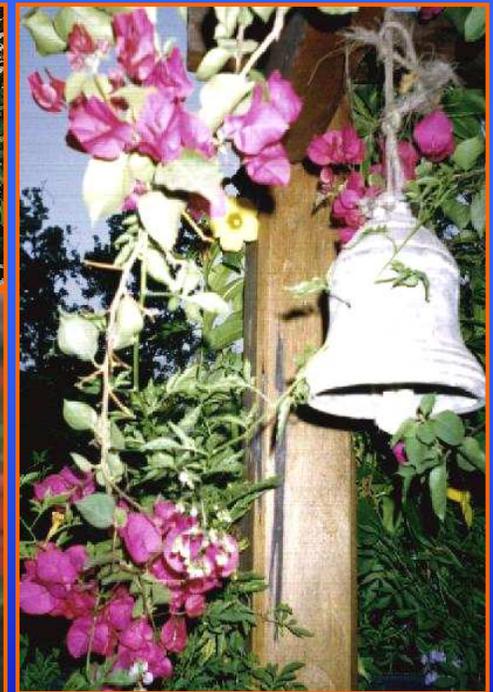

Plants fully recovered with Homa Therapy

# FLOWERS with HOMA THERAPY

The life of the flowers once harvested and put into water is one week. The flowers are accompanied with a permanent fragrance.

Flowers from farms where agro-chemicals are used, last only one day.

Observation: Eng. Jorge Hidalgo Valdiviezo,  
Ministry of Agriculture of the Republic of Peru, Fruit Culture Promotion

# COWS

before

With uncontrollable warts. The vet recommended that the cow be put down.

After 30days

with **HOMA THERAPY**

- Warts are disappearing
- General health improves
- The fur turns shiny, which indicates good health
- Calves in early stages of pneumonia healed in only 10 days with the Agnihotra ash treatment

Observation: Eng. Mate Uranga, Lima, Perú

# Bull Healed with HOMA THERAPY

A pedigree bull named “Nene” valued at \$US 50,000 was infected with a lethal virus called “Piroplasmosis.” It was contracted from the soil and 500 cows were infected. “Nene” was healed with Agnihotra ash and Homa Therapy overnight.

Observation: Dueño Sr. Americo Pérez  
L.E.# 10493737, Tocache, Perú

## Indian Results

# Vanilla

Shri Desai reports that his first ever vanilla produce (1999-2000) was of excellent quality and the best in India. The vanilla bean curing process (three months) was started along with Homa Therapy treatment. The matured vanilla beans were tested at Spice Board of India testing laboratory in Cochin and the vanillin percentage by weight was 2.91%, the highest in this growing season.

Shri Desai reports: "In this month we had three heavy rains at Sutagatti. First occasion was when I was performing Om Tryambakam Homa. The other two rains came during evening Agnihotra. However, the first occasion was special. It rained only over Parashanatti and Sutagatti. This rain was very essential to us because the electricity transmission transformer was burnt and we had no power for fifteen days. Our mud dam built across River Ghataprabha remains now full. Usually, it dries up by middle of May. We now have abundant water for farming during summer after many, many years."

Year	Place	Vanillin % by Weight
1998	Ernanakulam, Kerala	2.56
1999	Myladumpara, Kerala	2.71
2000	Sutagatti, Karnataka	2.91

Farm of Shri Abhay Mutalik Desai  
Sutagatti, Dist:Belgaum, Karnataka

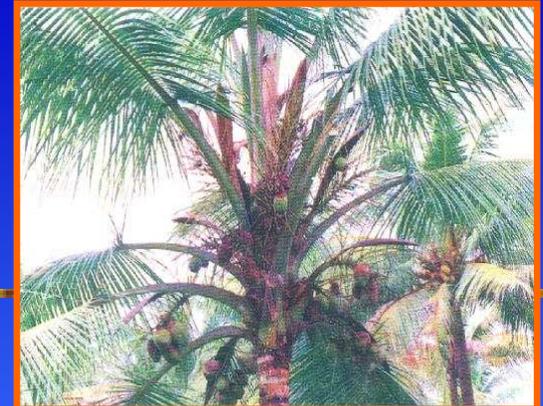

# Turmeric

- Arul Kartikeyan is a bio-dynamic farmer in Coimbatore district.
  - The whole turmeric crop was affected by an insect infestation.
  - After only one spray treatment with Agnihotra ash water solution, the disease on the leaves cleared up completely.
- 
- The pumpkin crop was also heavily infested with insects. Again, after only one spray with Agnihotra ash water solution, a large population of predator insects appeared, bringing the situation under control.

# Coconut

- **Outbreak of nut infesting eriophyid mite in coconut plantations of South India in 1999.**
- **First time reported in any Asian country.**
- **Extremely small sized fruits.**
- **Heavy crop losses due to immature nut fall.**
- **After 6 months treatment with Homa Therapy on the Chinnaswami farm, there was a complete cessation of falling immature nuts.**

# Tomato

- The first planting of tomato on the Dhanalal farm was heavily infested with tomato borer.
- All the farms in the area were infested.
- Heavy doses of chemical insecticide were needed 3 times per week.
- After 2 weeks treatment with Homa Therapy there was 70% improvement in crop.
- Some severely diseased plants which were treated individually with Homa ash gave extraordinarily high yields.
- The subsequent plantings after beginning Homa Therapy treatment were not infested at all.

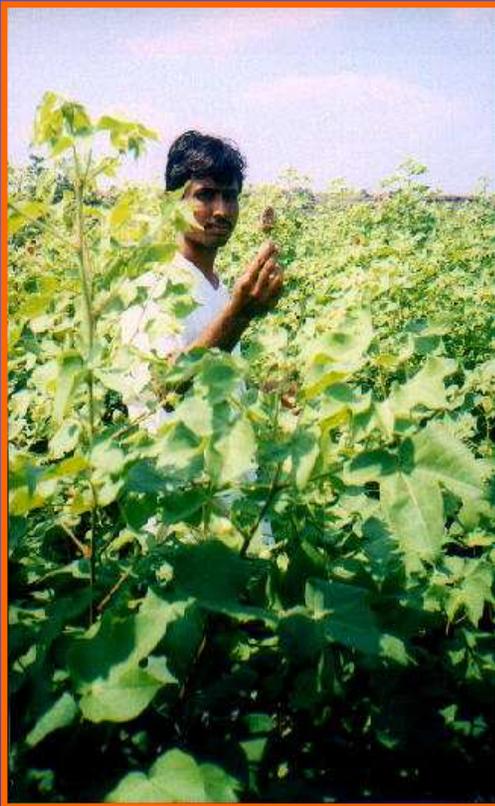

# Cotton

Cotton is grown as a cash crop in several parts of India.

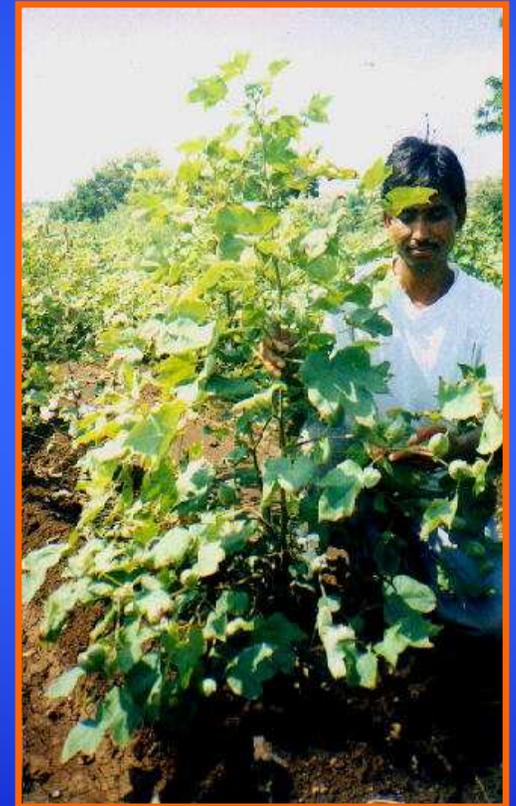

- Widespread use of chemical insecticide to control insect attack.
- Many farmers still suffer up to 70% loss of their crop, even with maximum use of chemicals.
- After discontinuing the use of chemical insecticides on his farm, Shri Tiwari found evidence of the natural predator of the cotton boll-weevil on his cotton bushes.

# Cotton

- Cotton farms in Jalgaon district Maharashtra, use heavy doses of agro-chemicals. Plants are large and green but with very few cotton bolls due to insect attack (left).
- Cotton plants in Tapovan farm where Agnihotra and Homa Therapy is practised, are much smaller but heavily laden with cotton bolls (right).

"Tapovan", farm of Shri Abhay V. Paranjpe  
Tal: Parola, Dist: Jalgaon, Maharashtra

# Rice

---

- **With use of Homa Therapy techniques, one month after planting, rice is completely free of disease.**
- **Shri Sundaram reports that this is the best result he has seen since his childhood.**
- **Taste is excellent.**

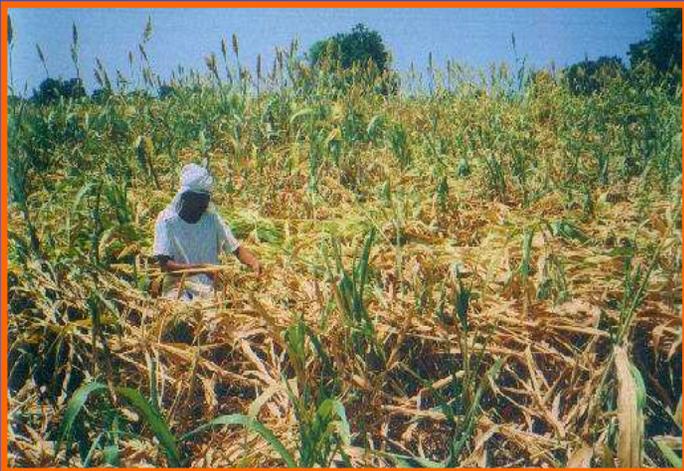

# Wheat

- **Shri Bhagwan Singh reports an excellent result with both wheat and barley crops.**
- **Also the farmers on the neighbouring farms were very happy as the Agnihotra and Homa Therapy effect extended onto their farms as well.**

Farm of Shri Bhagwan Singh  
Jhajhar, Dist:Navalgarh, Rajasthan

# Millet

- **Many farms in Jalgaon district, Maharashtra, suffered extensive losses of the millet crop due to an infestation of stem borer. (top picture).**

- **Millet in Tapovan farm where Agnihotra and Homa Therapy techniques are practised, was completely free of any insect problem. (bottom picture).**

"Tapovan", farm of Shri Abhay V. Paranjpe  
Tal: Parola, Dist: Jalgaon, Maharashtra

# Soya Bean

- Using agro-chemicals the yield from the Prestige farm in year 2000 was 350 kg per hectare.
- Using Agnihotra and Homa Therapy farming techniques the yield in year 2001 was 2100 kg per hectare without irrigation.
- Other farms in the area averaged 700 to 800 kg per hectare. Nearest best result was 1200 kg per hectare.
- Beans from Prestige farm were of superior color.
- Roots of the plants from the Prestige farm bore twice the number of nitrogen-fixing nodules as those from the neighbouring farm.

# Homa Therapy

Some Personal Healing Experiences

## Lily Cuculiza de Schaefer, Piura, Peru

### Allergies

---

- Lily was suffering from an allergy for about 2 years. She could not sleep, was constantly coughing and scratching. She had nausea. Her eyes were watering. She even visited doctors in USA for special allergy injections. But she was still sick.
- She decided to give up all the medicines and leave it in God's hands.
- She was guided to the Agnihotra fire.
- Thanks to Agnihotra she now sleeps peacefully and the allergies have gone.

# Feliz Gustavo Amarillo, Bogota, Colombia

## Psoriasis

**Dr. Navarro, a Homeopathic Doctor from Bogota treated him and many other patients with Agnihotra ash.**

**Patient suffered from psoriasis, which covered his chest, back, arms and especially the legs.**

**Treatment:**

**On the affected body parts Agnihotra ash mixed with Ghee was applied for 6 months.**

**The patient also ingested the Agnihotra ash in small quantities during the time of treatment.**

**Results:**

**Complete Recovery.**

Benito Palermo García Mendoza, Piura, Peru  
Chronic cold, high cholesterol level, backache

---

**Benito has been able to completely give up all allopathic medicines for the above conditions and now feels well and healthy.**

**He takes one teaspoon of Agnihotra ash daily.**

Hella Barta, Singen, Germany  
Cancer of the throat

---

**Hella's cancer was caused by nuclear radiation as a result of Chernobyl accident. Doctors diagnosed it as incurable and recommended operation. Hella decided to take the help of Agnihotra and fasted with Agnihotra ash water. After two weeks doctors found the cancer completely cured. Twelve years later she remains cancer-free and at the age of 72 years she still rides her bicycle.**

*Mari Vásquez Vélez, Piura, Peru*  
*Stomach ache, insomnia, mouth ulcer, dry skin, stress*

---

**Mari found that taking Agnihotra ash relieved her gastritis and acidity problem, healed her mouth ulcer after a few hours and rehydrated her dry skin. Now she also sleeps better and if she is feeling very tense for any reason and she does Agnihotra, she feels very relaxed.**

*Claudia Agurto, Piura, Peru*  
*Hepatitis*

---

**I have had liver problems since my childhood. I tried to eat and drink, but I vomited and had stomach pain also. Sometime ago the University nurse diagnosed my condition as hepatitis. The next day I went to the Homa Therapy session and took ash and massaged my stomach with ash-ghee crème in circular motion. This worked and I immediately vomited bile and green phlegm. I did not eat for three days; I just drank water with Agnihotra ash. Sunrise and sunset Agnihotra were done daily in my house. At the fourth day I went to school, could eat and felt enthusiastic about the quick healing thanks to Agnihotra.**

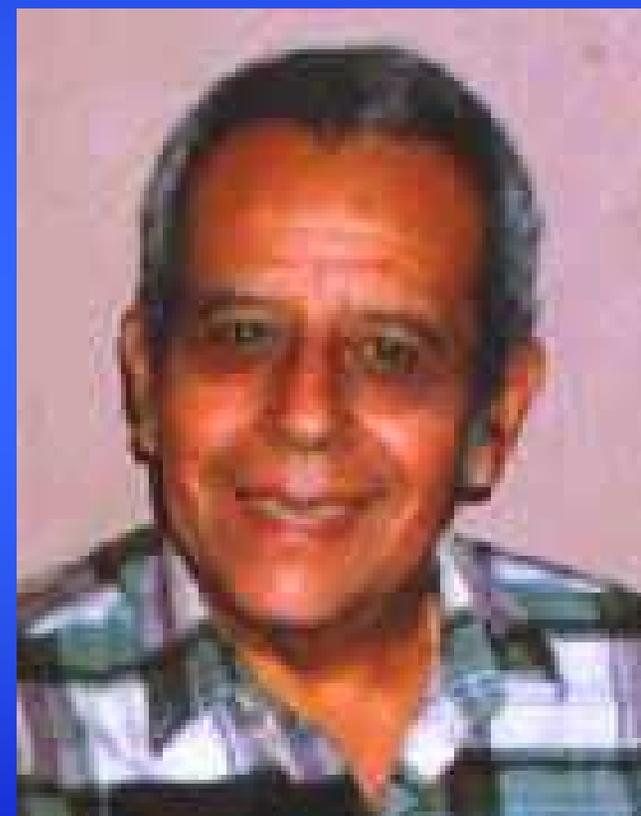

*Jilmer Benito, Piura, Peru*

*High blood pressure, heart problems, tiredness, insomnia*

---

**I underwent heart surgery twelve years ago. They did three coronary bypasses. Since then I was taking pills. Some relatives suggested that I should not take that many pills because of the addiction problem. I stopped the pills, got sick and then I followed the doctor regarding the pills. Then I heard of the Homa Therapy and started to come regularly to the healing sessions. Now, I do not take any more pills. I sleep very well and my friends changed my nickname from "Slow" to "Lightning Flash". It used to take me a long time just to cross a road; I walked very slowly. Now they can hardly spot me when I pass them with my bike.**

## Isabel Gamarra, Lima, Peru

### Tumor

---

Once Luis, my husband began to perceive a tiny tumor in the groin, which began to grow overnight and in a short time reached 10 cm. First we called two doctor friends; they are people that know the Homa Therapy fires. They didn't want to give any diagnosis. So we went to see the Teacher Vasant, who happened to be here at this time and also Doctor Abel Hernandez. We were told that it was necessary to apply the Agnihotra cream (the clarified, unsalted butter with the Agnihotra ash) in that whole area. After the first application Luis felt anxious because the skin opened up and a liquid came out. The whole area that had been like a globe, kept on reducing with the application of the Agnihotra cream and everything healed very quickly and left us very surprised.

---

Bruce Johnson, Hunter Valley, Australia  
Asthma

---

**Bruce had chronic asthma since adolescence. After starting Agnihotra asthma was completely cured.**

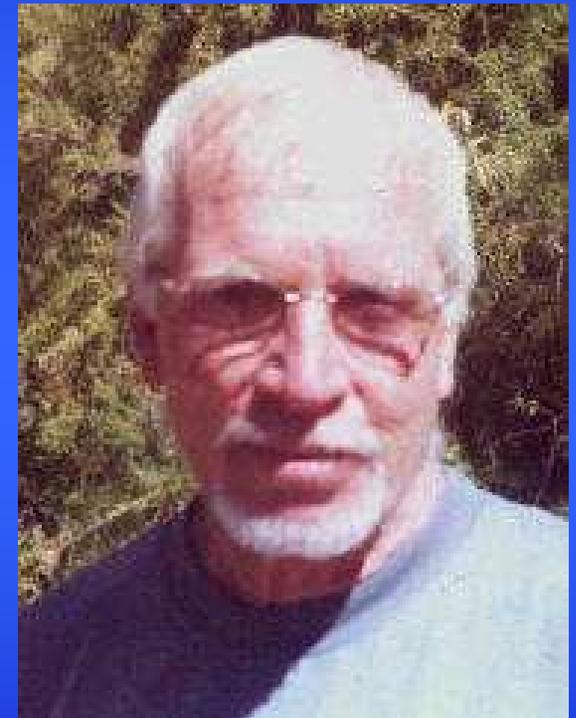

## Felipe Munoz, Cochiguaz, Chile

### Herpes

---

For 3 months Felipe received medical treatment. Then one day, he was taught the Agnihotra fire. He was also given the Agnihotra ash, that he was supposed to take like a medicine and the Agnihotra ash cream prepared with Ghee, which he applied directly on the affected areas. In the course of 15 days he was healed and very happy, that he was able to lift his arm again.

*Doris Bouillon de Chunga, Piura, Peru*

*Asthma, skin blemishes, headache, stomach ache, dermatitis*

---

- **Doris suffered from asthma for 5 years. Since she began coming to the Homa Therapy sessions 10 weeks ago she has not needed to use the inhaler.**
- **The dark spots on her face due to the cortisone she used to take are fading.**
- **Her husband reports that she is now softer and good-humoured.**
- **Her headaches and stomach pain have gone.**
- **She used Agnihotra ash cream to heal her nephew's dermatitis.**

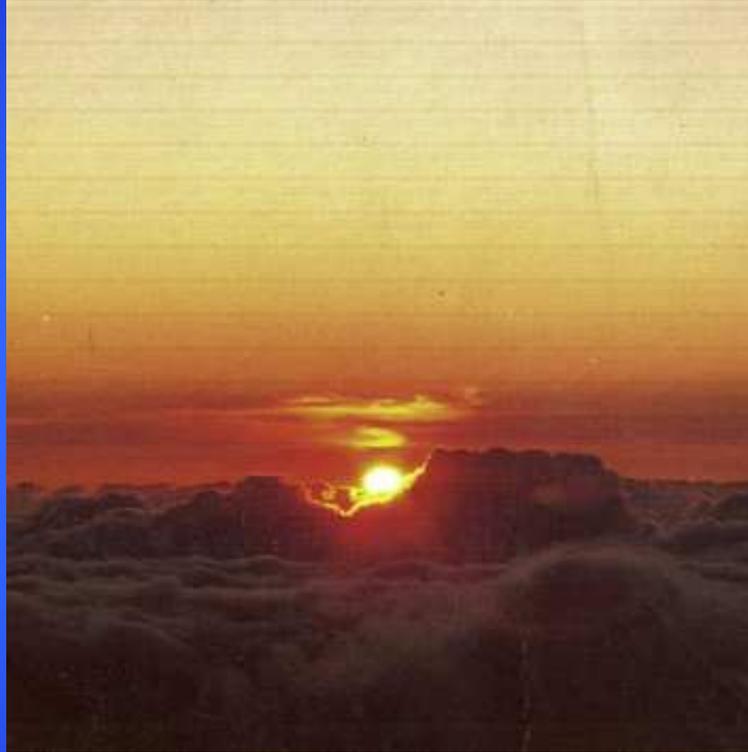

*Jorge Sandoval Moscol, Piura, Peru*  
*Diabetes, family stress, sick plants*

---

- **I was diagnosed with diabetes, having a glucose level of 348 in my blood.**
  - **After attending the Homa Therapy sessions I was able to acquire the Agnihotra materials and now we practice it at home with the whole family. Today I have a glucose level of less than 100 and the queasiness has almost completely disappeared. The healing effect of this old medicinal healing science is incredible.**
  - **Now I feel healthy and very calm and take life with love and patience, which works for the best of the whole family.**
  - **With other professionals we have created our own self sufficient ecological project.**
  - **My ornamental plants have improved very well with Homa Therapy treatment. They were affected by a virus. My plants received the Agnihotra ash and today they are healthy and flourishing.**
-
